MOUNTAIN HARNESS ALPAMAYO

SOL Paragliders focusing on the customers, offers for the fans of “hike and fly” a paragliding a brand-new mountain harness: the Alpamayo. The harness structure is certified within EN.

The origin of the name is a fantastic mountain range, the Cordillera Blanca, located in the Andes of Ancash in Peru. The Alpamayo is the most known summit in this region, and considered the most beautiful mountain in the world, cause his shape reminds the form of a perfect diamond.

As the name is suggesting, the new harness is made of noble textiles. It is a very light product. The weight does not exceed 600 gr and fits in a small bag, satisfying the need of lightness and little volume, fundamental elements for equipment in this sport activity.

1. Lateral adjustment

2. Chest buckle

3. Shoulder adjustment

4. Connection point for carabiner
